

CERTIFICATE OF COMPLETION

This certifies that
John Doe

Has successfully completed
EPA-SWMM Professional Development Training Series
Course 1: Introduction to EPA-SWMM and Building a Basic Model

Continuing Education Credit: 1.0 Hour (PDH)

Date of Completion: 8/19/2026
Certificate Number: SWMM-ABCDEFGH

Presented By: Tim Nelson
Bosh Solutions Corporation

This certificate confirms successful completion of the aforementioned educational activity with defined learning objectives, instructional content, and a knowledge assessment. The participant engaged with the material and demonstrated competency by achieving the required assessment standard; records documenting completion are maintained by the provider.

Course Completion Details and Verification

This certificate confirms successful completion of the following educational activity.

Participant Name: John Doe

Course Outcome: Passed

Completion Date: 8/19/2026

Professional Development Series:

EPA-SWMM Professional Development Training Series

Course Name:

Course 1: Introduction to EPA-SWMM and Building a Basic Model

Course Description:

This course provides an introduction to EPA-SWMM, including its user interface, basic modeling workflow, and fundamental modeling concepts. Participants will develop a basic model consisting of a rain gage, subcatchment, and outfall; configure and execute a simulation; and review and interpret the resulting model outputs. The course establishes a foundation for understanding how EPA-SWMM represents rainfall, runoff, and drainage system behavior.

Learning Objectives:

- Identify the purpose and basic capabilities of EPA-SWMM and navigate its user interface and basic modeling workflow.
- Create and configure a basic EPA-SWMM model consisting of a rain gage, subcatchment, and outfall.
- Run an EPA-SWMM simulation and identify whether the model has successfully completed.
- View and interpret basic simulation results generated by EPA-SWMM.

Duration & Delivery

Content Duration: 1.0 Hour

Continuing Education Credit: 1.0 Professional Development Hour (PDH)

Course Delivery Method: Online
